

THE BOURBON NEWS.

PUBLISHED EVERY TUESDAY AND FRIDAY IN THE YEAR.

VOLUME XXVII

PARIS, KENTUCKY. TUESDAY, MAY 21, 1907.

NUMBER 30.

New Cafe.

Messrs. Vimont & Slattery have just opened up in connection with their saloon a swell cafe, which will be open from 5 a. m. to 12 n.

These gentlemen have engaged two popular and experienced men to take charge and have also secured the services of a first-class chef.

The place has been thoroughly renovated and will be kept in neat and clean style. It will be their object to conduct a first-class and up-to-date restaurant where the public can get the best of service and will be served with everything that is seasonable. Their specialty will be short-order lunches, such as steaks, broiled fish, spring chickens, sandwiches, coffee and imported cheeses, etc.

The Home Building and Loan Association will loan you money to build your home.
Apply to C. K. Thomas, Sec'y, at Deposit Bank.

25 Cents. 25 Cents. 25 Cents.

For nicely decorated salad dishes well worth 50 cents.

FORD & CO.

Would Be Great Improvement.

In a recent issue we made notice where the City Council instructed Mayor O'Brien to consult with the L. & N. people in regard to tunneling under the railroad on Vine street. At the recent meeting of the Fiscal Court, Mr. C. M. Clay, who resides on the Winchester pike, appeared before the court and urged the necessity of something to be done as the above steps being taken by the city. Judge Dundon appointed Squires Claybrook and Keller as a committee to meet with the City Council and officials of the L. & N. to devise some means by which the tunneling of Vine street under the railroad could be made and the probable cost of the work that each would bear. This would indeed be a great improvement and convenience to the residents who reside on the Winchester pike. As it is now, there are six tracks they have to cross on Winchester street.

Opening Today.

Don't fail to attend the opening today of the nobbiest line of straw hats and genuine Panamas that was ever brought to Central Kentucky at J. W. Davis & Co.'s. All styles and prices.

Dr. Landman, the oculist and aurist, will be at Mrs. R. M. Harris' corner of Fourth and Pleasant streets, Tuesday June 11th.

Fiscal Court Refused to Remove the Turnpike Supervisor.

The motion to remove C. F. Redmon, the Turnpike Supervisor, was heard by the Fiscal Court last Friday, at a special meeting called for that purpose. T. E. Moore, Jr., County Attorney, represented the county and Mr. Redmon was represented by Robt. C. Talbott.

As previously published in the News, the County Attorney asked for the removal of Mr. Redmon on six grounds.

First, because the contracts for repairing the turnpikes were not let at the court house door at public outcry on court day in March.

Second, because, these turnpikes were let on the 16th day of March at private contract.

Third, because the Supervisor had made a contract with W. B. Linville to work the Millersburg & Cynthiana Turnpike for \$7.75 per rod after P. S. See had bid to perform this work at \$7.50 per rod.

Fourth, because he had made a contract with said Linville to repair the Millersburg and Cane Ridge turnpike at \$7.75 per rod after P. S. See had offered to do the same work for \$7.50 per rod.

Fifth, because the Supervisor had contracted with Mote Rankin to repair the Ardery pike for \$8.00 per rod after P. S. See had offered to do this work for \$7.00 per rod.

Sixth, because the Supervisor had contracted with John Long to repair the Redmon turnpike at \$8.00 per rod after P. S. See had offered to do the same work at \$7.00 per rod.

P. S. See was the first witness, and testified that he had handed Ed. Speaks, the Assistant Turnpike Supervisor, in the presence of C. F. Redmon, sealed bids at the prices named in the charges, on March court day for the work on the four turnpikes above named and that at the same time he bid on the Tarr Station, the Robert Tarr, the Paris and Jackstown, Carlisle and Plum and Steel Ford Turnpikes and that he received contracts on all of said turnpikes except the first four named in the above charges and that Mr. Ed Rice of North Middletown, signed his bonds for these contracts, and that Mr. Redmon told him that Squire Thomason wanted W. B. Linville to have the Millersburg and Cynthiana turnpike contract.

See further said that he had contracts with the county last year and the work was accepted by the Supervisor and paid for.

Sherman Stivers testified that Mr. Redmon told him after the contracts were made that in no instance had any of the turnpikes been let at a higher price than the bid that he had received.

C. F. Redmon then testified in his

own behalf and said that the County Attorney had told him on March court day not to let the contracts under sealed bids, but to let them publicly at the court house door, and that he refused to do it, and after he had received the sealed bids, the County Attorney protested to the Fiscal Court because the contracts were not let at public outcry, and that for that reason he obtained the consent of the County Judge to let these contracts privately, and that he did let them privately and claimed that as a result he let them for \$245 less than the original bids.

He admitted that he let W. B. Linville have the Millersburg and Cynthiana and the Riddles Mills and Millersburg pikes for \$7.75 per rod after See had bid to do the same work for \$7.50 per rod, claiming that See had not paid some of the farmers for rock along the roads that he had worked last year and that he was afraid that he could not get the rock, and that he had been bothered by persons attaching See's money, etc.

Mr. Redmon denied that See bid on the Ardery and Redmon pikes, and said that he did not let See have any contracts where anyone bid on the same work. There were several other witnesses that testified to Mr. Redmon as to minor details.

Mr. Talbott argued the case for Mr. Redmon, claiming that to remove him from office was too severe punishment for such small matters even if Mr. Redmon was wrong. Mr. Moore closed the argument, contending that it required no skill to break and spread rock and that is such work, the lowest bidder was always the best bidder, especially as the contractor was compelled to give a good bond for the performance of his contract.

After hearing the evidence and argument the court voted unanimously against the removal of Mr. Redmon.

Why do all cooks and housekeepers prefer to use E. F. Spears & Sons' Red Cross Flour?

Has Solved Aerial Flight.

The practicability of the English inventor Brennan's gyroscopic to be used in making a truck run on one rail, is doubted by many scientists. Brennan's object in inventing the mechanism was to provide an improved means of transport for the army in time of war, the work of laying one track being so much less than laying two. The truck is supposed to be able to travel over rough country and around curves without being upset. The inventor also claims that his invention will solve the problem of aerial flight by lending a stability to the flying machine.

A COLLEGE MAN

Looks as much a fossil in a Suit of Clothes made for his father as a Vassar girl would appear if she wore a dress built for her mother. The difference twixt College Brand Clothes (just for young chaps and men who envy the youth) and usual garments, is every whit this much, no price difference.
